PROVIDE FASTER DRAINAGE WITH THE HALYARD* PARACENTESIS TRAY

• Reduced Paracentesis procedure time up to 50%†1
  - Shorter procedure duration increases procedural throughput†1
  - Shorter drainage time allows clinician to remain with patient during entire procedure2

• Improved patient experience
  - Fewer patients require multiple punctures for drainage1
  - Shorter drainage time may lead to less risk of infection2

• Increased functionality accommodates clinician preference
  - Compatible with wall and portable suction, vacuum bottles, or gravity drain3
  - Tray is suitable for diagnostic and therapeutic Paracentesis procedures

Since product inception, no major adverse patient events have been reported to the U.S. Food & Drug Administration (FDA)4
Customers can search the FDA MAUDE database to confirm this information: http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfMAUDE/search.CFM

† When compared to Angiocath™ Needle1
