CLEANING BRUSHES

The HALYARD® family of Cleaning Devices provides efficient mechanical cleaning of the endoscope exterior, biopsy and umbilicus channels, valve seats and valve buttons. They are available in 4-, 5- and 6-mm sizes conducive to Multi-Society Guidelines. Specific features include:

**CB-X1**
- Single-ended
- Cable-assisted
- Flexible distal tip
- Polypropylene catheter
- Nylon brush construction
- 14 rows of bristles
- Multiple bristle sizes
- Disposable
- Non-Sterile

**CB-X2**
- Double-ended
- Cable-assisted
- Flexible distal tip
- Polypropylene catheter
- Nylon brush construction
- Specific umbilicus and biopsy channel brush; valve and valve seal brush
- Multiple brush sizes
- Disposable
- Non-Sterile

Meticulously clean the entire endoscope, including valves, channels, connectors, and all detachable parts with an enzymatic detergent compatible with the endoscope immediately after use.

**UTILITY CLEANING BRUSH**
- Double-ended utility brush
- Two distinct, tapered brush configurations
- Plastic handle
- Nylon brush construction
- Disposable
- Non-Sterile
