

# PROTECTION THAT WORKS FOR YOU AND YOUR PATIENTS

PPE serves a dual purpose. Originally developed to protect healthcare workers, PPE, when used properly, can also represent the first line of defense against contact transfer to patients of pathogens such as MRSA and C. diff.

Our AAMI Level 2-compliant Over-the-Head Isolation Gown with Thumb Hooks provides you with protection from liquid strikethrough.

When you don fresh PPE before entering each patient's room, you help reduce the risk of contamination and transmission of infectious organisms that can lead to HAIs.

### **AAMI LEVEL 2 OVER-THE-HEAD ISOLATION GOWN WITH THUMB HOOKS**

- For use when expected risk of exposure to fluid is between low and moderate
- Meets AAMI Level 2 requirements
- Medium-weight SMS fabric

### **RECOMMENDED FOR:**

- Suturing, blood draw, inserting I.V. lines, specimen handling, drawing arterial blood
- ICU, Med/Surg Unit, Hyperbaric and Dialysis Units, Labs and Pathology, Nursery

## AAMI Guidelines: A Reliable Benchmark for Protection

	LEVEL 1	LEVEL 2	LEVEL 3
AAMI Level / Performance Requirements at 4% AQL	Spray Impact Penetration < 14.5g	Spray Impact Penetration < 1.0g Hydrostatic Pressure > 20cm	Spray Impact Penetration < 1.0g Hydrostatic Pressure > 50cm
Anticipated Risk of Exposure to Fluid	Low	Between Low and Moderate	Moderate
Gown Characteristics (Weight)	Light-weight SMS fabric	Medium-weight SMS fabric	Heavy-weight SMS fabric

To meet AAMI Guidelines, protective apparel must achieve minimum performance standards for strength, barrier performance and fluid resistance. Tested under controlled conditions, AAMI-rated gowns must demonstrate a 4% AQL level, which provides a high level of assurance that users are protected for the anticipated level of fluid contact. Each garment must be fully protective in the front, back and along the seams, and be clearly labeled to indicate the level of protection provided, from AAMI Level 1 (lowest) to AAMI Level 4 (highest). The Halyard tri-layer AAMI Level 2 Over-the-Head Isolation Gown with Thumb Hooks meets all AAMI specifications for Level 2 protection.

### HALYARD\* TRI-LAYER AAMI LEVEL 2 OVER-THE-HEAD ISOLATION GOWN WITH THUMB HOOKS
