INTRODUCING AQUASOFT* GLOVES
A NEW LEVEL OF COMFORT, PROTECTION AND VALUE

Halyard Health invites you to flow through your day, comfortably protected, with new, ultra-thin, AQUASOFT* Nitrile Exam Gloves.

Their unique nitrile formulation lets AQUASOFT* Gloves offer comfort and tactile sensitivity comparable to latex without the risk of latex skin irritation and allergies.

- Preferred tactile sensitivity
- Higher count per box saves space and waste
- Textured fingertips
- Beaded cuffs
- Ambidextrous

Yet, AQUASOFT* Gloves are thinner than typical nitrile gloves. That means they take up less storage space – each box contains 300 gloves – and they generate less waste.

Like our entire nitrile glove family, AQUASOFT* Nitrile Exam Gloves are easy to don, with a silky, snug fit.

They’re ideal for use in applications that require superior tactile sensitivity, when exposure to harsh chemicals is not expected. And with AQUASOFT* Gloves, your facility can afford the quality of nitrile, whatever the task.

From the manufacturer of the #1 branded nitrile glove in the dental market.
**SUSTAINABILITY SAVINGS:**
- 67% reduction in storage space and waste

**AQUASOFT® NITRILE EXAM GLOVES ARE DESIGNED FOR A WIDE RANGE OF TASKS.**
- Higher count per box saves space and waste
- Powder-free
- Ambidextrous

**Physical Properties**

**Before Aging**
- Tensile Strength: 23 MPa
- Ultimate Elongation: 500%

**After Aging**
- Tensile Strength: 28 MPa
- Ultimate Elongation: 450%

**Quality Standards**

Exceeds current ASTM Standards for critical defects, tensile strength, and puncture resistance.

Passes primary skin irritation testing in accordance with ISO 10993-10(2010)

Manufactured in accordance with Quality System ISO 9001.

**AQL - ASTM D5151**

Critical Defects Level <1.0 AQL†
